

MOBILE SOUND

SPECIALIZING IN WEDDING RECEPTION DANCE MUSIC

MOBILE SOUND specializes in Wedding Reception Music Entertainment for brides wanting to have big fun and a big sound on a not so big budget! By combining MOBILE SOUND into any of our Wedding Photo packages, not only can you save a bundle of money, you have two less (major) things to worry about while planning your big day.

WE PROVIDE your requested music at the time you want it. From the Grand Entrance and First Dances, to the Bouquet and Garter tosses. We will play appropriate music during your dinner and cocktail hour, a more laid back variety early in the evening "for the masses", and when the time is right, we will pump up the volume with material more suited for serious dancing and partying. Of course, we also provide any needed announcements to keep things flowing along, and open mic's for any commentary or toasts that your guests want to offer.

MOBILE SOUND is priced in two ways. Combined with a STEEN-TOMPKINS photo package, or as a stand-alone service. Please contact us with your specific needs.
